

Exercise: Maintain Fiscal year variant and posting period variant for a Company code

Estimated Completion Time: **45 minutes**

1.1 Overview

This exercise requires participants to create Fiscal year variant. Open and close posting periods using posting period variant.

1.2 Instructions

1. Create new Fiscal year variant (from February to January).
2. Define the parameters as year independent and non-calendar year. Have 12 normal periods and 2 special periods.
3. Create periods: Define month 1(January 2022) as period 12 with year shift -1 and from month 2 use year shift as 0 and start with period 01.
4. Define a new posting period variant.
5. Keep the current period open and close previous posting periods to allow for posting.
6. Assign above defined variants to Company code of your choice.

1.3 Hints

1. Go to SPRO->Financial Accounting -> Financial Accounting global settings-> Ledgers-> Fiscal year and Posting periods
2. View in transaction OBY6 and check if the above defined basic settings are assigned to the Company code of your choice
3. For more information on basic settings, refer online help
