

Exercise: Maintain basic settings

Estimated Completion Time: **45 minutes**

1.1 Overview

This exercise requires participants to create basic settings and assign to Company code. Create tolerance group and assign to user.

1.2 Instructions

1. Create new document type to post vendor invoice for a specific business process.
2. Define the parameters for new document type such as account type, mandatory fields, number range, reversal document type.
3. Create number range for the range assigned in the above document type for Fiscal year 2021. Maintain it as internal and not external.
4. Create new Field status group variant and assign to Company code
5. Define new tolerance group
6. Assign the created tolerance group to any user

1.3 Hints

1. Go to SPRO->Financial Accounting -> Financial Accounting global settings-> Document
2. For more information on basic settings, refer online help
